

Relax Farms, A Revokable Trust

Focus on EO 13790: Great Little Towns Project

presented by xxxxxx (name hidden), Trustee/TTEE

BACKGROUND

Small towns have no funds to repair themselves, or to grow. Industry is not attracted to dying communities. Most parks and entertainment for children are in extreme disrepair, and towns have no funding. As people leave the town, so do the stores. Living up to this EO, I began planning to help Great Little Small towns repair pools and parks.

PROJECT MISSION for Great Little Towns

This mission is to establish a humanitarian plan that is designed to completely turn around the existing problems in small towns and make them attractive and desirable to live. These teams will include Ernst and Young and leading advisors working today along with local town advisors. We will start here, in Walsenburg, Colorado as the test site and then roll out services to small towns across Colorado, and next to Kansas and New Mexico in our early-stage development.

Our team will consist of several talented managers that it has been my pleasure to know along with the experts we will recruit. It will also include my 2 talented children, both educated who can offer their services, along with their spouses who are equally talented and committed to being a positive force.

- We will begin with three coordinating initial targeted studies and viability for change and quickly move to every small town that needs help in every state in the nation.
- We will offer a full trade school that will use abandoned homes, commercial properties, and fallow land as their classrooms to learn skills.
- This focus is all encompassing and we are open to working with top trust management and humanitarian leadership that will have previously demonstrated ability to help with this type of endeavour and will look for this introduction from our private banker.

Solutions:

- Purchase every abandoned building on small town's main street. Hire a team to determine what that store property should sell.
 - Offer this business to a resident of the city.
- Require Business management classes to scaffold education while the property is being readied.
- Reach out to train companies to find every train track without guards and place guards on every track across the nation that are within 5 miles of a home.

- In cities with abandoned schools or churches, purchase these buildings and turn them into building trades training centers. Purchase abandoned homes and use them as on-site education for the tradesmen learning to build.
- Repair or build community swimming pools, water parks, skate parks or meet the needs of outdoor entertainment for the small communities' children. Repair/build or replace all size community outdoor entertainment for children in all size cities as phase 2.
- (For My town) Purchase acreage to hold week-long outdoor education camps and events to teach science or hold events for unserved groups.

FUNDING Required for Repair to Relax (19,502 small towns):

One billion is needed for each town to buy abandoned buildings, refurbish/repair them and then give to the communities. Total estimated budget: 19,502 billion dollars.

19,502 small towns with an average of two crossings per town, at a price of 500,000. Budget needed is 9,751,000,000

Training centers should be spread among 4 small towns, so 4,875 training centers at a cost of 1 million per is 4,875,500,000.

Community pool build/repair, estimate 5M per town for a budget of nearly 100,000,000,000.

Total budget before labor and education costs: 19,714,116,000,000.

CLOSING STATEMENT

I have been deeply inspired by President Trump's drive to overcome such incredible problems with our nation. I want to do the same for Great Little Towns and bring flourishing prosperity to Great Little Towns. God is a big part of my life and I share my faith when 2 or more are gathered in His name. It is my personal goal to quietly Bless others using the guidance of our team of humanitarian gifting experts. I intent to share 10% of our annual earnings to encourage growth and Outreach of Faith It is my privilege and honor to be involved in this Grand Event.

Thank you for this opportunity, Much Gratitude
